DETAILED ACTION

Response to Amendment

1. This action is in response to the communication filed on 12/22/08.
2. Claims 1-12 were previously cancelled.
3. Claims 13-24 are pending in this action and are allowed.
4. The drawings submitted on 7/9/08 have been approved by examiner.

Allowable Subject Matter

Claims 13-24 are allowed.

The following is an examiner's statement of reasons for allowance:

As per claims 13-24: the claims are directed to routing uplink and downlink packets between a wireless LAN terminal and an IP terminal via an IP network. The prior art of record does not teach or fairly suggest a diversity device (a diversity router), connected to the IP network and transmit/receive downlink/uplink packets in parallel from the wireless LAN terminal via a plurality of base stations and the diversity device/router further including selecting one of the parallel transmitted uplink packet for transmitting to the IP terminal and transmitting a down link packet received from the IP terminal in parallel to the LAN terminal via said plurality of base stations, as recited particularly in claims 13, 23 and 24. The purpose of the diversity device/router is to ensure a low error rate, even under bad wireless conditions and long distance

communication utilizing high speed transmission, as stated in the specification (see page 2, line 31-page 3, line 8).

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
